

quicKutter

Rope Cutter

"Simply the best rope cutter"

Avoid Entanglement and Bearing Failure

Rope and line entanglement can cause bearings to overheat or seal damage

Improve Crew Safety

Avoid possible structural damage and loss of propulsion, reduce need to dive overboard to untangle

Reduced Maintenance Costs

Increased bearing and shaft life, reduced downtime and avoid potential loss of income

Boat Speed and Performance

Streamlined design creates less turbulence, vibration and drag than other cutter designs

Cuts Rope, Line, Weed, Stainless Steel Wire*

Rope and line up to 1" (25mm) and 3/16" (4.75mm) SS cable *with optional hardened blades

Australian Designed and Manufactured

Patented shaver cutter, buy Australian and support your local industry
